

## ***Working Safely in Community Service DVD and Facilitator's Guide***

Aspire Learning Resources has once again succeeded in producing an invaluable resource that will assist both learners and trainers when undertaking the Certificate III in Aged Care Work and Certificate III in Home and Community Care. Aspire developed these resources with funding from the Workplace English Language and Literacy (WELL) program, administered by the Department of Education, Employment and Workplace Relations (DEEWR).

The ***Working Safely in Community Service DVD*** and ***Facilitator's Guide*** have a workplace language and literacy focus whilst also incorporating employability skills, which makes the resources accessible to learners at all levels. They are particularly useful for:

- Learners with language and literacy needs
- Employees wishing to gain recognition for their skills
- Workforce entrants to the community services field.

Specifically the ***Working Safely in Community Services DVD*** addresses 7 units of competency in CHC08 Community Services Training Package and covers how to work safely in the key areas of:

- occupational health and safety
- manual handling
- standard hygiene practices
- working effectively and being safe in a home and community care environment
- supporting older people to maintain their independence.

A great feature of this DVD is that it has subtitles for the hearing impaired and for people learning English as an additional language.

The ***Working Safely in Community Services Facilitator's Guide*** that is used in conjunction with the DVD includes:

- an explanation of how to use the DVD
- cross references to competency standards covered
- teaching strategies
- discussions points for encouraging questions
- suggestions for further language and literacy activities.

The DVD together with the printed Facilitator's Guide is available for purchase for \$49.95 (incl GST).
