

Trainers and Assessors – Professional Development Workshop

HIGH IMPACT TRAINING

Using team building based training to enhance Employability Skills in learning

Innovation and Business Skills Australia (IBSA) and APCOT are back with another high energy professional development program for trainers and assessors. This workshop will introduce you to the impact team building based training can have while enhancing Employability Skills in learning.

You will be involved right from the beginning in team building activities which will allow you to experience and reflect on the dynamics of team activities in learning. An exploration of the new Employability Skills in National Training Packages will help you align these important components with active, group based learning. You will find new ways of integrating Employability Skills into highly engaging activities for your learners that help them develop and strengthen their Employability Skills.

Here are some of the concepts to be covered:

- **How and where to find Employability Skills**
- **How to effectively integrate Employability Skills into team based training**
- **Team based skills development for your learners including:**
 - clarifying objectives
 - planning before acting
 - revising plans as information is received
 - the impact of poor communication
 - accepting and valuing others' ideas

This workshop is based on having some Serious Fun while working through some Serious Concepts!

Receive a FREE interactive and re-usable portfolio of the strategies and interactive activities covered during the workshop.

The Facilitators

The APCOT Facilitators are all highly skilled, experienced and handpicked by Gabrielle Hartin, CEO and lead facilitator for APCOT. Gabrielle, a global leader in training and assessment has lived and worked on four different continents. Gabrielle founded APCOT when she saw a gap in the market for a high quality, Registered Training Organisation dedicated to the delivery of training and assessment and professional development for trainers and teachers.

The APCOT facilitators will engage and guide you through the discovery of new learning points and new perspectives that you can incorporate into your design and delivery techniques. The APCOT facilitators all have an open mind, a willingness to learn and keep on learning and a desire to support your Continuous Improvement pursuits!

The APCOT TAA04 learning programs and teaching resources have all been developed in-house by APCOT and therefore present a unique learning methodology based on Gabrielle's experiences of working in Learning and Development on four different continents (Australia, Asia, South America and Europe) with people of varying ages, abilities and levels of English literacy.

This need has seen APCOT use its national and international experiences to dedicate itself and focus solely on developing the skills and qualities of high performing trainers and leaders.

Workshops

There are currently no public workshops advertised for this course.

To express interest in attending a public workshop, or to enquire about running this program for a group of employees in-house please contact:
